## Miquel Castellví

Miquel Castellví is an industrial Engineer and managing director of Deerns Spain, the Spanish office of a multi-national engineering firm, where key values such as transparency, trust, freedom and accountability are at the heart of innovative ways of working. Miquel has worked in different engineering companies and has also gone through a bankruptcy process which he today considers a time of deep learning.

## Ernst von Kimakowitz

Ernst von Kimakowitz is passionate about strengthening the positive impact of business towards a more equitable and more sustainable planet. He is co-founder and leads the Humanistic Management Network and Humanistic Management Center and is Senior Research Fellow at the University of Lucerne in Switzerland.

## Ivan Ureta

Ivan Ureta, holds a PhD in Business History (Deusto) and a PhD in International Political Economy (King's College London). Ureta heads the department of Executive Education at SUPSI. In the past Ureta has been affiliated to IE Business School, King's College London, University of Cambridge, University of Oxford among others. He has also accumulated international experiences in diplomacy and international cooperation.

## Airton Prato

Airton Prato is a Brazilian musician born in the north east of Brazil where a vibrant mix of cultural heritages is omnipresent, driving the arts and creative activities of its warm-hearted people. Airton will play a selection of Brazilian Bossa Nova classics. So close your eyes and join Airton on the Sugar Loaf and Ipanema beach.

Deerns is an independent engineering firm specialised in providing technical consulting and engineering solutions with almost 500 staff members in offices around the globe. Deerns provides a broad range of high-quality services to its local, national, and international clients. Deerns has done project work for many Airports, Health Care organisations, Data Centres, Laboratory and Cleanroom users and Commercial Real Estate developers.
